Forward by Mrs. Joyce Jech.

In a time where we are seeing so much danger facing our children, This book was written with much love and compassion to help children learn what to do when they are faced with danger.

Perla feels very strongly that children need to know what to do to protect themselves and stay safe. In our busy world we sometimes forget to review and practice what needs to be done.

If this book can help one child protect themselves. It is a success.

Forward by Mr. Steve Mason Principal, Skiatook Public Schools

In today's education we are seeing a need to not only teach our students how to read and write, but how important it is to instill safety in our young children's minds. This safety book was created as a learning tool to teach our precious students bus safety, so that when they are presented with situations they have the tools to make good decisions.

Perla has a tremendous passion for student safety, through her safety books and presentations she teaches students safety procedures at their level. This creative approach Perla is taking is making a difference in children's lives.

Thank you so much for taking our current issues and creating such a wonderful and impactful book that will make a difference.

In memory of the beloved gift in my life and to all the children who have touched and changed my heart forever.

I dedicate this book to the love of my life, the children of MARRS Elementary Public School Skiatook OK.
